

Toledo Technical Topics Advertising Data Sheet Publishing Year 2008-2009

Thank you for your previous support of Technical Society of Toledo! Our goal is simple, cover issues important to the engineering and technology communities in Toledo, Northwest Ohio and Michigan, keep our eye towards the future and inform our members of what is new. One way to accomplish this goal is by publishing *Toledo Technical Topics*. By advertising in *Toledo Technical Topics*, you help to fund this publication and in turn help us to accomplish the goal of keeping the technical community aware of what's new!

If you have advertised with us in the past, you will find a copy of your ad attached to this Data Sheet. Also enclosed is our simplified ad rate structure. Each advertiser will receive two (2) ads for the quoted ad cost: Winter 2008 and Spring 2009. **The deadline for Winter Issue: December 1st – Spring Issue: February 2nd.**

If you have changes to your ad, please indicate below and include new camera ready artwork either by mail with your data sheet or via email to: tst@eng.utoledo.edu and I will get it to our publisher.

Thank you and we look forward to having you with us for the 2008-2009 year!
